## MORE WALKS NEEDED

With More Walks Ada Can Get the  
Free Delivery Service at  
Once.

G. E. Webb, postoffice inspector, has been here today making an examination with a view of ascertaining if the conditions existing here warrant the installation of free mail delivery. He and Postmaster Winn were driven over town this morning in R. E. Blank's auto and he took a careful note of everything that concerned the question in hand.

In conversation with a representative of the News he stated that four conditions must be met: street lights, streets marked, houses numbered, street crossings and sidewalks. When the contract for marking the street corners and numbering the houses has been completed there will be only one obstacle left and that is the question of sidewalks. Too many gaps exist on the streets that would be on the first routes established, and he says these must be filled in, and

also the walks must be extended in other directions if those parts of town are to be served. When that is complied with there will be nothing in the way and on his favorable report the department will at once establish at least two routes. The thinly settled parts of town and those sections that do not measure up to the sidewalk requirements will be left out until their growth and the building of sidewalks justify the extension. Mr. Webb spoke in most complimentary terms of Ada as a town and hopes that during the next few months the sidewalk situation will improve to an extent that will justify his making a favorable report. As indicated above when the service is first put on it will probably start with two carriers which number will be increased as the needs of other sections of the city demand. All opposition to the establishment of free delivery seems to have disappeared. Mr. Webb informing us that some who had protested at first having withdrawn their opposition.

At present there are twenty cities in Oklahoma enjoying this service as follows: Alva, Ardmore, Bartlesville, Blackwell, Chickasha, El Reno, Enid, Guthrie, Hobart, Lawton, McAlester, Muskogee, Oklahoma City, Perry, Sapulpa, Shawnee, Stillwater, Tulsa and Vinita. The office receipts of several towns in the state entitle them to free delivery but they are short along other lines and cannot get the service yet.

## R. L. EATON BUYS

### PASTIME PARLORS

The Pastime moving picture parlor has changed hands. C. F. Thomas selling to R. L. Eaton. Mr. Thomas and his family have been with us more than a year and have given the town some good clean shows. We regret to lose them from Ada. They will probably move to Oklahoma City.

The show will now be under the management of J. R. Tiernan, late of Oklahoma City. He is an experienced man in this line and promises to give the people the best there is to be had. His wife arrived this morning and they are now full fledged citizens of Ada. We wish the new management success.

## HEAVY PAYMENT OF TAXES YESTERDAY

Yesterdays collection of taxes eclipsed all previous records for the season. Up to four o'clock in the afternoon the county treasurer's office had received \$7,729.17. How would you like to be the county treasurer, anyway.

## JOHN JENKINS SURRENDERED BY HIS BONDSMEN

John Jenkins, charged with killing Bert Vaden at Roff, who was recently released on \$5,000 bail, is again in the custody of the sheriff, his bondsmen surrendering him yesterday afternoon.

## ADA CAMP W. O. W. ELECT OFFICERS

The Ada Woodmen of the World elected the following officers last evening for the ensuing year:

## SEN. RODDIE AND "FOL-DE-ROLNESS"

RODDIE'S INTERVIEW IN SUNDAY'S OKLAHOMA AND CLUBWOMAN'S REPLY.

### RODDIE DEMANDS REFORMS

Clubwoman Gives Him a Few Ideas About the Purpose of Modern Education.

To eliminate "fol-de-rol" in state normal courses; to do away with the long list of "modern accomplishments" in which students of those institutions are instructed, and to readopt the old, plain plan of state normal instruction, is the purport of a bill to be introduced at the next regular session of the Oklahoma legislature, by Senator Reuben M. Roddie, of the Twenty-third district. "I would eliminate all foolishness from the normal schools," said Senator Roddie. "What's the use of teaching men and boys how to sew? What's the good of our normals instructing our teachers in the works of Chopin, Mendelssohn, Gounod, and in 'rag-time'? What's the use of teaching them to become actresses, songstresses, elocutionists, if they are going to be teachers? What we want in our normals is the instruction of students as how to teach. Do away with the 'fol-de-rolness'."

And this from a young man, a college graduate, a lawyer and one of the promising members of the third legislature.

Will the school-marks rise up in arms? Will they declare that its privilege to learn to sing, to deliver elocutions, and to indulge in "fol-de-rolness"? Will the pedagogues say it is an accomplishment, and a needy one, to learn to sew?

In that event, the senator says to learn it in some other school, not in the state normal school.

How old is Senator Roddie, the women will ask. Has he ever been to college? Doesn't he appreciate these accomplishments?

The senator both is young and has

SMITH'S 203-5 W MAIN ST.

been to college. What is more he has been to several colleges and is getting another good schooling in a class in which he is part teacher, the third legislature.

### He Is Accomplished.

And he is accomplished. In fact he is so accomplished, that he might be a rival for Senator Elmer Thomas, as the human iceberg of the senate. But he is not cold to his friends, nor to those whom he takes into his confidence.

"I don't like fol-de-rol instruction in schools," senators. "By the way fol-de-rol is a good word. It means foolishness, doesn't it? Well, we have too much foolishness in our state normals. Too much sewing, painting, singing, elocution, and too many accomplishments. What we want is plain, every-day instruction for our teachers. Instruct them to sing in the old-fashioned school style. That's good. But don't attempt to teach to sing in modern voice, heard on the stage. Don't try to teach them to paint like an artist, to appear like an actress, and to sew like a Paris dress maker or a fancy needle worker."

"And to teach men how to sew! Men, who have to get out and dig and hustle for a livelihood! A man school teacher as a member of a sewing class! That is a farce."

Besides the elimination of these "accomplishments" from the state normal courses, Senator Roddie has another idea in view, in the introduction of his proposed bill. That is to save the state \$120,000 every two years. To this end the bill will provide that the appropriation for the state normals, of which there are

six in number, be \$25,000 a normal year, in stead of \$35,000, as is now appropriated. This will be a saving of \$20,000 on every school, every two years.

"On \$50,000 every two years, with the elimination of the unnecessary courses now taught in the normals, they can operate, as thoroughly as they are now operated on \$70,000 every two years," he says.

Too Many Teachers.  
Mr. Roddie believes that there are too many teachers in the normals, and that the president should be given absolute authority.

"The president should have absolute authority in naming the officers of the normal," he said. "Give him more authority in every way, and allow no one to be appointed as an officer or teacher in the normal over his protest. Give the board of regents absolute power as to appointment or removal of the president, eliminate some of the teachers, let the graduating class who desire to be teachers, as such in the normals to a certain extent, eliminate the eighth grade instruction in the normals, and eliminate unnecessary courses, and the normal will be more effective, and of more advantage to the teachers who are to instruct the boys and girls of Oklahoma."

These are the ideas of this senator.—Oklahoman.

### Clubwoman's Reply.

In Sunday's Oklahoman, Senator Roddie gave some of his ideas on what should be taught in our normals and states he will introduce a bill in the next legislature, proposing to cut down appropriations for normals and to eliminate some of the courses taught. He has just about given all the 'music teachers in the state spasms, charging them with teaching "ragtime."

These normal schools are very near and dear to clubwomen because we have been working along normal lines for many a year, we have been studying social conditions and know the needs of the people.

Senator Roddie should study old and well established normals in the older states, states east of the Mississippi before writing that bill. It would be well for him to "read up" on the educational systems of England and Germany, perhaps, before writing that bill.

We are all very new and crude out here in Oklahoma. We are not "up" in music. We should have the theory of music taught and a taste for good music cultivated in our public schools therefore we should give our prospective teachers the best and most thorough musical training in our normals.

We do not expect to make artists of our teachers or our pupils. The object of the art courses in our schools is to cultivate the esthetic side of our children's natures, to teach them to observe, to train the hand, eye and brain; to teach them to select good pictures, and to know what is beautiful in dress, house decoration, landscape gardening, architecture and in nature.

We club women think economics are the most important branches taught in our public schools.

Homes are the units of which one nation is built, and the home-maker rules the nation whether she votes or not.

When the women of America were

well trained by their mothers in the domestic arts, household economics and all arts that go to make a well-ordered home; when women had only the Bible and a few other books to read; when they dressed plainly; then they lived simple, homely lives, and had never heard of the installment plan or willow plumes they raised the best citizens our nation has produced; and our country waxed rich and prosperous.

But some how the mothers of our land forgot the knack of teaching their daughters the useful arts and duties pertaining to the home and the whole country has felt the effects.

We were in a fair way to starve for want of cooks; men could not marry cooks nor hire cooks. The market was very short on cooks; we had to resort to patent foods, canned goods, and other ready-to-eat pre-digested products of the men manufacturers.

These do not satisfy the appetite or build the brawn and brain that good, wholesome home-made, three-square meals a day produce.

Our nation was feeling this so seriously that grave legislators have taken the matter in hand and require by law that "Domestic Science and Household Economics shall be taught in all our public schools." School training will hardly equal proper home training but it is a step in the right direction.

Therefore, if men do not want to learn and teach domestic science let them step down and out, women teachers there are, a plenty, ready to teach these nation saving branches. We hope Senator Roddie will inform himself along this line before he prepares that bill else it may prove all "fol-de-rol."

A CLUB WOMAN.

### OPPOSITION ONLY PLAYING 'POSSUM.'

No, my dear readers, the opposi-  
tion to the Byrd's Mill bonds are not  
dead, neither have they given up the  
fight. They could have made no  
headway by fighting in the open  
since the question first came up, so  
they are hoping to hide the support-  
ers of the measure to sleep in fancied  
security and then on election  
day come suddenly to life and de-  
feat the whole proposition. It will  
not do to move along with the idea  
that the fight is won. We hope it is,  
but we see no reason for permitting  
overconfidence to jeopardize the  
bond issue. The bigger the majority  
the easier it will be to spot the  
bonds after they are issued, so let  
every friend to the city's best in-  
terest get busy and do all in his  
power to bring out a full vote  
Thursday.

As an example of what the lack  
of water can do for a town we cite  
a letter from a family at Altus to  
Tom Hope. They say that although  
their town has expended more than  
\$100,000 on its system, it is abso-  
lutely out of water and no relief  
in sight until it rains. That family has  
fired of that sort of a place and will  
probably move to Ada within a very  
few weeks. If the Byrd's Mill bonds  
are voted, there is no doubt of their  
coming. And, by the way, there are  
hundreds of others situated exact-  
ly the same way. Ada will be the

city of refuge for all who are try-  
ing to escape from the disadvan-  
tages of other less favored towns  
and who appreciate the advantages  
of good schools, churches and abun-  
dant water.

Ada has every natural advantage  
a town could have except water. With  
her enterprising people, her churches  
and good schools it only remains to  
provide a never-failing supply of  
water to put it in the class of the  
big cities of the state. People have  
their eyes turned this way and when  
they catch sight of the successful  
termination of this struggle for good  
water, they will head for Ada.

"The democratic majority is van-  
ishing in Oklahoma," is the head-  
ing of an article that has been go-  
ing the rounds of the republican  
press of the state. Perhaps Joe Mc-  
Neal has later information on the  
subject.

It is the magic power of water  
that makes the fertile and beautiful  
oasis in the desert. Water is just as  
important in the development of a  
town as it is in reclaiming the oasis.

If the Byrd's Mill bond issue car-  
ries, just watch real estate values  
in Ada climb. Oklahoma City won't  
be in our class a little bit.

Ambition is the vital spark in man  
and when it is quenched decay sets  
in.

Year resolution yet?

### Mrs. Eliza A. Floyd Dead.

Last evening, about 6:30, Mrs. Eliza  
A. Floyd, died suddenly at the home  
of her son-in-law, W. J. Reed. She  
had been ill for sometime past, but  
was able to be up. About twenty min-  
utes before her death occurred she  
complained of a strange feeling com-  
ing over her and lay down. She be-  
came unconscious immediately and  
died in a few minutes. Deceased was  
seventy-nine years old yesterday be-  
ing her birthday. She is survived by  
two children, Mrs. W. J. Reed of  
Ada and Mrs. M. L. Brinn of Clarks-  
ville, Texas. This morning Mrs. Reed  
left with the remains for Anona, Tex.  
where they will be interred. Deceased  
had lived to a ripe old age and her  
death will be mourned by her many  
friends wherever she was known.

**OKMULGEE MAN GUILTY OF  
RENTING BUILDING AS JOINT**  
Okmulgee, Okla., Dec. 19.—At mid-  
night Saturday night the jury in the  
\$192,000 penalty suit against C. M.  
Roberts for using a building owned  
by him for the sale of intoxicating  
liquors violation of the liquor laws,  
returned a verdict of \$3,000 against  
the defendant. The jury was out  
about two hours.

Fred S. Caldwell, state enforcement  
attorney, was pleased with the ver-  
dict, as Roberts' equity in the build-  
ing is not over the amount of the  
verdict.

Caldwell said after the trial that  
the penal ylaw would probably be  
used much more frequently in the  
future in trying to enforce the pro-  
hibitory laws.

Other suits of this nature are pend-  
ing in the district court.

### NATURE SPARES

**The Stricken Rose From Grief.**  
What a fortunate provision of nature  
it is, that deprives the rose of mental  
suffering; for how poignant would be its  
grief to discover, in the height of its  
blooming glory, that a canker fed at its  
heart, and that its beauty and fragrance  
were doomed forever. Nature always  
spares the suffering; she is a veritable  
store-house of pleasing rewards, for  
those who seek her aid. In the years  
gone by falling hair and grayness have  
cast a gloom over the lives of thousands  
of young women, but thanks to the in-  
vestigations of scientists the true cause  
of hair destruction is now known to be  
a germ or parasite that burrows into  
the hair follicles. Newbro's Herpicide  
absolutely destroys this germ, thus  
permitting the hair to grow as na-  
ture intended. Sold by leading drug-  
gists. Send 10c. in stamps for sample

## CITY COUNCILMEN TRANSACT IMPORTANT BUSINESS

All members of the council were present last night at which proved to be an important meeting. Among some of the bills allowed was \$180.99 to the Pittsburg Meter Company, the balance, due on some meters purchased last year, and \$51.32 to the Ada Ice and Fuel company for coal used in digging of the city well. When Charlie Rinard presented his claim for the hauling of this coal it was suggested by some of the councilmen that here after they would employ him to haul only for half instead of all the value of the coal as the size of his bill would indicate. He seemed perfectly willing to make this kind of contract.

The one per cent reserve which had been held on the original storm and sanitary contract for twelve months in order to cover any possible defects in construction being due, warrants covering all the available funds for this purpose were ordered turned over to the contractors.

The holders of the warrants amounting to about \$2,400.00 against the normal property delivered on oral message to the council from Senator R. M. Roddie, stating that the city was pledged to give the normal water and sewerage works free to the state; and unless this be done there is a probability of no appropriation at the next term of the legislature for the maintenance of the school. Since the matter did not come within the province of the city council's authority, no action could be taken.

The warrants issued against the normal property will have to be paid beyond a doubt, Mr. Levy stated that they, the holders of these warrants, intended going before the legislature and ask for an appropriation in payment or else ask for a sale of the property.

The latter extreme they did not want to resort to if other means of settlement could be provided.

A few complications arising from the peculiar situation of some property relative to the sewers were brought to the notice of the council and adjusted.

A petition signed by a goodly number of the leading business men of the city asking for an ordinance preventing the blockading of the streets or sidewalks by merchandise being placed thereon as is often the case at present was read and referred to the ordinance committee.

A resolution recommending the report of the appraisers on the property of the M. T. & T. Ry. Co. and appointing a new board of appraisers for the same was adopted. An ordinance of no little significance which keeps all vehicles, carriages, wagons and carts, etc., from stopping and standing for a period of eight minutes at a time was passed by emergency. While this ordinance has for its prime object the protection of the freshly paved street where asphalt is used, it brought forth a great deal of discussion both humorous and serious from the councilmen.

Another ordinance of importance that was passed with the emergency clause was that of requiring the Frisco Railway to build a concrete bridge at the Main street crossing.

The proposition of buying a street sweeper was referred to the street committee with power to act. The

Cures Headaches—All kinds—Gripp, Colds, Aches From Malarious Conditions, Etc.

Capudine cures Headaches, whether from heat, cold, brain-fag, over-exertion or stomach troubles. It cures sick headaches and nervous headaches also.

Capudine is also the quickest and best remedy for attacks of Cold or Gripp. It relieves the aching and feverishness and restores normal conditions.

Capudine is liquid—easy and pleasant to take—acts immediately. 10c., 25c. and 50c. at drug stores.

sweeper will probable be purchased at an early date.

Several things of minor importance were given due consideration also. Among them that of buying a team for the sweeper, the disposition of the refuse from the fire department, Chief of Police Hounsall was allowed to select an extra police to serve during the holidays, and special attention was called to the ordinance prohibiting the shooting of fire crackers, Roman candles, rock-ets and the like in the business districts.

## FAMOUS LADY HYPNOTIST AT DE SOTO THEATRE

Miss Marie Hall the famous hypnotist who pleased such a large audience at the DeSoto last night will appear again tonight also tomorrow night. This remarkable woman has astonished and amused the public of all the larger cities.

The spectacle of two young men "making up" as summer girls are popularly supposed to do, donning everything from whalebone armor to the last dainty touch of rouge to the lips is one of the screams that result from suggestions made to subjects by Miss Hall.

The subjects are volunteers from the audience and usually leave the stage much crest fallen when "brought back" wearing a mother hubbard and violently kissing a supposed sweet heart. The woman hypnotist is particularly popular with the ladies who never tire of seeing one of their sex rominate the minds of the supposedly stronger gender.

## ELECTRIC LIGHT PEOPLE FAVOR BYRD'S MILL

If any one could be expected on account of self interest to oppose the Byrd's Mill bond issue it would be natural to expect that it would be the Ada Electric and Gas Co. This company is at present the chief beneficiary of the waterworks system, its bill for power being several hundred dollars each month, and the company having gone to considerable expense to equip properly to take care of this business. However, instead of opposing they are strongly in favor of it. Sometime ago when President Hamilton was here from Illinois he made a trip to Byrd's Mill with P. E. Bowman, the manager of the company, and he stated that although the loss to the company would be considerable at present the city would grow so rapidly that his company would soon be doing as well as ever. Of course if any tax would have to be levied the light company would have to pay its share of it. Mr. Bowman is also strongly in favor of the proposition, so it would seem that if any opposition is to arise it will come from small tax payers.
